Before investing you should carefully consider the Fund’s investment objectives, risks, charges and expenses. This and other information is available in the Fund’s prospectus, a copy of which may be obtained by visiting the Fund’s website at www.sportsetfs.com. Please read the prospectus carefully before you invest.

There are risks involved with investing, including possible loss of principal, and there is no guarantee the Fund will achieve its investment objective. Concentration in a particular industry or sector will subject the Fund to loss due to adverse occurrences that may affect that industry or sector.

Individual shares of the Fund may be purchased or sold in the secondary market throughout the regular trading day on the Cboe BZX Exchange, Inc. (the “Exchange”) through a brokerage account. However, shares are not individually redeemable directly from the Fund. The Fund issues and redeems shares on a continuous basis, at NAV, only in large blocks of shares (“Creation Units”), principally in-kind for securities included in the Fund’s underlying index.

MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE

April 30, 2018
(Unaudited)

Dear Shareholders,

On behalf of the entire team, we want to express our appreciation for the confidence you have placed in the ProSports Sponsors ETF ("FANZ" or the "Fund"). The following information pertains to the fiscal period of July 10, 2017 (inception date) through April 30, 2018.

The Fund seeks to track the total return performance, before fees and expenses, of the ProSports Sponsors Index (the "Index"). The Index measures the performance of companies which are official sponsors of the major professional football, baseball, hockey and basketball leagues in the US or national sports broadcasters with rights agreements with such leagues.

The Fund had positive performance during the fiscal period ending on April 30, 2018. The market price for FANZ increased 11.53% and the NAV increased 10.73%, while the S&P 500, a broad market index, gained 10.74% over the same period. The Fund's Index returned 11.43%. Meanwhile, outstanding shares ended the period at 250,001.

For the period, the largest positive contributor to return was Amazon.com Inc. (AMZN US), adding 0.83% to the return of the Fund, gaining 57.54% with an average weighting of 1.65%. The second largest contributor to return was New Relic Inc. (NEWR US), adding 0.73% to the return of the Fund, gaining 51.02% with an average weighting of 1.75%. The third largest contributor to return was Brown-Forman Corp. (BF/B US), adding 0.72% to the return of the Fund, gaining 52.02% with an average weighting of 1.59%.

For the period, the largest negative contributor to return was The Kraft Heinz Co. (KHC US), detracting 0.51% from the return of the Fund, declining 31.02% with an average weighting of 1.36%. The security contributing second-most negatively was CBS Corp. (CBS US), detracting 0.36% from the return of the Fund, and declining 22.11% with an average weighting of 1.39%. The third largest negative contributor to return was Campbell Soup Co. (CPB US), detracting 0.28% from the return of the Fund, and declining 18.34% with an average weighting of 1.40%.

For the period, the best performing security in the Fund was Amazon.com Inc. (AMZN US), gaining 57.54% and contributing 0.83% to the return of the Fund. The second-best performing security for the period was Brown-Forman Corp. (BF/B US), gaining 52.02% and contributing 0.72% to the return of the Fund. The third-best performing security was New Relic Inc. (NEWR US), gaining 51.02% for the period and contributing 0.73% to the return of the Fund.

For the period, the worst performing security in the Fund was The Kraft Heinz Co. (KHC US), declining 31.02% and reducing the return of the Fund by 0.51%. The second-worst performing security in the Fund was CBS Corp. (CBS US), declining 22.11% and reducing the return of the Fund by 0.36%. The third-worst performing security in the Fund was Under Armour Inc. (UA US), declining 18.87% and reducing the return of the Fund by 0.21%.

We look forward to keeping you well informed as things progress.

Sincerely,

Garrett Stevens, Chief Executive Officer
Exchange Traded Concepts, Advisor to the Fund

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that shares, when redeemed or sold in the market, may be worth more or less than their original cost. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains distributions. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index.

Current performance may be lower or higher than performance data quoted. For the Fund's most recent month end performance, please visit www.sportsetfs.com.

There are no assurances that the Fund will meet its stated objective.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities. The information provided herein represents the opinion of Vident Investment Advisory, LLC for the period stated and is subject to change at any time.

The S&P 500 Index is a capitalization-weighted index of 500 stocks. The index is designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.

Net Asset Value - The dollar value of a single share, based on the value of the underlying assets of the fund minus its liabilities, divided by the number of shares outstanding. Calculated at the end of each business day.

(1) Per share numbers have been calculated using the average shares method.

(2) Not annualized for periods less than one year.

(3) Net asset value total return is calculated assuming an initial investment made at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, if any, and redemption on the last day of the period at net asset value. This percentage is not an indication of the performance of a shareholder's investment in the Fund based on market value due to the differences between the market price of the shares and the net asset value per share of the Fund.

(4) Market value total return is calculated assuming an initial investment made at market value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, if any, and redemption on the last day of the period at market value. Market value is determined by the composite closing price. Composite closing security price is defined as the last reported sale price on the Cboe BZX Exchange, Inc. The composite closing price is the last reported sale, regardless of volume, and not an average price, and may have occurred on a date prior to the close of the reporting period. Market value may be greater or less than net asset value, depending on the Fund's closing price on the Cboe BZX Exchange, Inc.

(5) Annualized for periods less than one year.

(6) Commencement of operations.

(7) Excludes the impact of in-kind transactions related to the processing of capital share transactions in Creation Units.

See accompanying Notes to Financial Statements.

Note 1 – Organization

Exchange Listed Funds Trust (the “Trust”) was organized on April 4, 2012 as a Delaware Statutory Trust and is registered with the Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Declaration of Trust permits the Trust to issue an unlimited number of shares of beneficial interest (“Shares”) in one or more series representing interests in separate portfolios of securities. The Trust has registered its Shares in several separate series. The financial statements herein are of the ProSports Sponsors ETF (the “Fund”). The Fund is a passively managed exchange-traded fund. The assets of each series in the Trust are segregated and a shareholder’s interest is limited to the Fund in which Shares are held.

The investment objective of the Fund is to provide investment results that, before fees and expenses, track the performance of the ProSports Sponsors Index (the “Index”). The Fund is classified as a diversified investment company under the 1940 Act. The Fund commenced operations on July 10, 2017.

Under the Trust’s organizational documents, its officers and Board of Trustees (the “Board”) are indemnified against certain liabilities arising out of the performance of their duties to the Trust. In addition, in the normal course of business, the Trust may enter into contracts with vendors and others that provide for general indemnifications. The Trust’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust.

Note 2 – Basis of Presentation and Significant Accounting Policies

The following is a summary of the significant accounting policies followed by the Trust in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”). The Trust is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies.” The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and income and expenses during the reporting period. Management believes the estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Fund ultimately realize upon sale of the securities.

(a) Valuation of Investments

The Fund’s investments are valued using procedures approved by the Board and are generally valued using market valuations (Market Approach). A market valuation generally means a valuation (i) obtained from an exchange, a pricing service, or a major market maker (or dealer) or (ii) based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service, or a major market maker (or dealer). A price obtained from a pricing service based on such pricing service’s valuation matrix may be considered a market valuation. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

In the event that current market valuations are not readily available or such valuations do not reflect current fair market value, the Trust’s procedures require the Fund’s Valuation Committee, in accordance with the Fund’s Board-approved valuation guidelines, to determine a security’s fair value. In determining such value, the Valuation Committee may consider, among other things, (i) price comparisons among multiple sources, (ii) a review of corporate actions and news events, and (iii) a review of relevant financial indicators (e.g., movement in interest rates or market indices). Fair value pricing involves subjective judgments and it is possible that the fair value determination for a security is materially different than the value that could be realized upon the sale of the security. In addition, fair value pricing could result in a difference between the prices used to calculate the Fund’s Net Asset Value (“NAV”) and the prices used by the Fund’s Index. This may result in a difference between the Fund’s performance and the performance of the Fund’s Index. With respect to securities that are primarily listed on foreign exchanges, the value of the Fund’s portfolio securities may change on days when the investors will not be able to purchase or sell their Shares.

The Fund discloses the fair value of its investments in a hierarchy that distinguishes between: (1) market participant assumptions developed based on market data obtained from sources independent of the Fund (observable inputs) and (2) the Fund’s own assumptions about market participant assumptions developed based on the best information available under the circumstances (unobservable inputs). The three levels defined by the hierarchy are as follows:

EXCHANGE LISTED FUNDS TRUST
NOTES TO FINANCIAL STATEMENTS (Continued)

April 30, 2018

- Level 1 – Quoted prices in active markets for identical assets
- Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – Significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Pursuant to the valuation procedures noted previously, equity securities and short-term investments are generally categorized as Level 1 in the fair value hierarchy (unless there is a fair valuation event, in which case affected securities are generally categorized as Level 2).

The following is a summary of the valuations as of April 30, 2018 for the Fund based upon the three levels defined above:

ProSports Sponsors ETF	Level 1	Level 2	Level 3*	Total
Investments				
Common Stocks ⁽¹⁾	\$ 5,485,210	\$ —	\$ —	\$ 5,485,210
Short-Term Investments	10,107	—	—	10,107
Total	\$ 5,495,317	\$ —	\$ —	\$ 5,495,317

* The Fund did not hold any Level 3 securities at period end.

⁽¹⁾ For a detailed break-out of common stocks by market segment, please refer to the Schedule of Investments.

Transfers are recognized at the end of the reporting period. There were no transfers between Levels at period end.

(b) Investment Transactions and Related Income

For financial reporting purposes, investment transactions are reported on trade date. However, for daily NAV determination, portfolio securities transactions are reflected no later than in the first calculation on the first business day following trade date. Dividend income is recorded on the ex-dividend date. Interest income is recognized on an accrual basis and includes, where applicable, the amortization of premium or accretion of discount. Gains or losses realized on sales of securities are determined using the specific identification method by comparing the identified cost of the security lot sold with the net sales proceeds. Dividend Income on the Statement of Operations is shown net of any foreign taxes withheld on income from foreign securities, which are provided for in accordance with the Fund’s understanding of the applicable tax rules and regulations.

(c) Foreign Currency Transactions

The accounting records of the Trust are maintained in U.S. dollars. Financial instruments and other assets and liabilities of the Trust denominated in a foreign currency, if any, are translated into U.S. dollars at current exchange rates. Purchases and sales of financial instruments, income receipts and expense payments are translated into U.S. dollars at the exchange rate on the date of the transaction. The Trust does not isolate that portion of the results of operations resulting from changes in foreign exchange rates from those resulting from changes in values to financial instruments. Such fluctuations are included with the net realized and unrealized gains or losses from investments. Realized foreign exchange gains or losses arise from transactions in financial instruments and foreign currencies, currency exchange fluctuations between the trade and settlement date of such transactions, and the difference between the amount of assets and liabilities recorded and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities, including financial instruments, resulting from changes in currency exchange rates. The Fund may be subject to foreign taxes related to foreign income received, capital gains on the sale of securities and certain foreign currency transactions (a portion of which may be reclaimable). All foreign taxes are recorded in accordance with the applicable regulations and rates that exist in the foreign jurisdictions in which the Fund invests.

(d) Federal Income Tax

It is the policy of the Fund to continue to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986 (the "Code"), as amended, and to distribute substantially all of its net investment income and capital gains, if any, to its shareholders. Therefore, no federal income tax provision is required as long as the Fund qualifies as a regulated investment company.

Management of the Fund has evaluated tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether it is more-likely-than-not (i.e., greater than 50%) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. Differences between tax positions taken in a tax return and amounts recognized in the financial statements will generally result in an increase in a liability for taxes payable (or a reduction of a tax refund receivable), including the recognition of any related interest and penalties as an operating expense. In general, tax positions taken in previous tax years remain subject to examination by tax authorities (generally three years for federal income tax purposes). The determination has been made that there are not any uncertain tax positions that would require the Fund to record a tax liability and, therefore, there is no impact to the Fund's financial statements. The Fund's policy is to classify interest and penalties associated with underpayment of federal and state income taxes, if any, as income tax expense on its Statement of Operations. As of April 30, 2018, the Fund did not have any interest or penalties associated with the underpayment of any income taxes.

(e) Distributions to Shareholders

The Fund distributes net investment income and capital gains, if any, at least annually. The Fund may make distributions on a more frequent basis for the Fund to improve index tracking or to comply with the distributions requirement of the Code, in all events in a manner consistent with the provisions of the 1940 Act.

The amount of distributions from net investment income and net realized gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature (e.g., return of capital and distribution reclassifications), such amounts are reclassified within the composition of net assets based on their federal tax basis treatment; temporary differences (e.g., wash sales and straddles) do not require a reclassification.

Note 3 – Transactions with Affiliates and Other Servicing Agreements

(a) Investment Advisory

Exchange Traded Concepts, LLC (the "Adviser") serves as adviser to the Trust, including the Fund, pursuant to an Investment Advisory Agreement ("Advisory Agreement"). Under the Advisory Agreement, the Adviser provides investment advice to the Fund primarily in the form of oversight of the Sub-Adviser (as defined below), including daily monitoring of purchases and sales of securities by the Sub-Adviser and regular review of the Sub-Adviser's performance. The Adviser arranges for transfer agency, custody, fund administration and accounting, and other non-distribution related services necessary for the Fund to operate. The Adviser administers the Fund's business affairs, provides office facilities and equipment and certain clerical, bookkeeping and administrative services, and provides its officers and employees to serve as officers or Trustees of the Trust.

For the services it provides to the Fund, the Adviser receives a fee, which is calculated daily and paid monthly, at a rate of 0.69% of average daily net assets of the Fund.

Under the Advisory Agreement, the Adviser has agreed to pay all expenses of the Fund except for the advisory fee, interest, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act (the "Excluded Expenses").

The Adviser has entered into a license agreement with SportsETFs LLC (the "Index Provider") pursuant to which the Adviser pays a fee to use the ProSports Sponsors Index (the "Index"). The Adviser is sub-licensing rights to the Index to the Fund at no charge.

(b) Investment Sub-Advisory Agreement

The Adviser and Vident Investment Advisory, LLC, (“Vident” or the “Sub-Adviser”) have entered into an investment subadvisory agreement (the “Sub-Advisory Agreement”) with respect to the Trust. Under the Sub-Advisory Agreement, the Sub-Adviser is responsible for, among other things, trading portfolio securities on behalf of the Fund, including selecting broker-dealers to execute purchase and sale transactions as instructed by the Adviser or in connection with any rebalancing or reconstitution of the Indices, subject to the supervision of the Adviser and the Board. Under the Sub-Advisory Agreement, the Adviser pays the Sub-Adviser a fee calculated daily and paid monthly at an annual rate of the average daily net assets of the Fund as follows: 0.06%, subject to an annual minimum of \$25,000.

(c) Distribution Agreement

Foreside Fund Services, LLC, a Delaware limited liability company, (the “Distributor”) is the principal underwriter and distributor of the Fund’s Shares. The Distributor does not maintain any secondary market in Fund Shares. The Trust has adopted a Rule 12b-1 Distribution and Service Plan (the “Distribution and Service Plan”) pursuant to which payments of up to 0.25% of average daily net assets may be made to compensate or reimburse financial intermediaries for activities principally intended to result in the sale of the Fund’s Shares. In accordance with the Distribution and Service Plan, the Distributor may enter into agreements with financial intermediaries and dealers relating to distribution and/or marketing services with respect to the Trust.

The Board has determined that no payments will be made under the Distribution and Service Plan through July 10, 2018. Thereafter, fees under the Distribution and Service Plan may only be imposed after approval by the Board. The Adviser and its affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Trust. Any forgone fees will not be recoverable during any subsequent period.

(d) Other Servicing Agreements

The Bank of New York Mellon (“BNY Mellon”) serves as the Fund’s fund accountant, transfer agent, custodian and co-administrator and UMB Fund Services (“UMBFS”) serves as the Fund’s co-administrator.

Certain officers of the Trust are also employees of the Fund’s Adviser and affiliates of the Distributor.

Note 4 – Investment Transactions

Purchases and sales of investments, excluding in-kind transactions and short-term investments, for the period ended April 30, 2018 were as follows:

Fund	Purchases	Sales
ProSports Sponsors ETF	\$ 839,534	\$ 972,041

Purchases, sales, and realized gain/(loss) of in-kind transactions for the period ended April 30, 2018 were as follows:

Fund	Purchases	Sales	Gain/(Loss)
ProSports Sponsors ETF	\$ 7,462,627	\$ 2,112,902	\$ 409,947

Note 5 – Capital Share Transactions

Fund Shares are listed and traded on the Cboe BZX Exchange, Inc. (the “Exchange”) on each day that the Exchange is open for business (“Business Day”). Individual Fund Shares may only be purchased and sold on this exchange through a broker-dealer. Because the Fund’s Shares trade at market prices rather than at their NAV, Shares may trade at a price equal to the NAV, greater than NAV (premium) or less than NAV (discount).

The Fund offers and redeems Shares on a continuous basis at NAV only in large blocks of Shares, currently 25,000 Shares for the Fund (“Creation Unit”). Except when aggregated in Creation Units, Shares are not redeemable securities of the Fund. Fund Shares may only be purchased or redeemed directly from the Fund by certain financial institutions (“Authorized Participants”). An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company (“DTC”) participant and,

in each case, must have executed a Participant Agreement with the Distributor. Creation Units are available for purchase and redemption on each Business Day and are offered and redeemed on an in-kind basis, together with the specified cash amount, or for an all cash amount.

To the extent contemplated by a participant agreement, in the event an Authorized Participant has submitted a redemption request in proper form but is unable to transfer all or part of the shares comprising a Creation Unit to be redeemed to the Distributor, on behalf of the Fund, by the time as set forth in a participant agreement, the Distributor may nonetheless accept the redemption request in reliance on the undertaking by the Authorized Participant to deliver the missing shares as soon as possible, which undertaking shall be secured by the Authorized Participant's delivery and maintenance of collateral from up to 115% of the value of deposit securities. A participant agreement may permit the Fund to use such collateral to purchase the missing shares, and could subject an Authorized Participant to liability for any shortfall between the cost of the Fund acquiring such shares and the value of the collateral.

Most retail investors will not qualify as Authorized Participants or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the Shares directly from the Fund. Rather, most retail investors will purchase Shares in the secondary market with the assistance of a broker, which will be subject to customary brokerage commissions or fees.

A purchase (i.e., creation) transaction fee is imposed for the transfer and other transaction costs associated with the purchase of Creation Units, and investors will be required to pay a creation transaction fee regardless of the number of Creation Units created in the transaction. The Fund may adjust the creation transaction fee from time to time based upon actual experience. In addition, the Fund may impose a non-standard charge of up to 0.02% of the value of the creation transactions for cash creations, non-standard orders, or partial cash purchases for the Fund. The Fund may adjust the non-standard charge from time to time based upon actual experience. Investors who use the services of an Authorized Participant, broker or other such intermediary may be charged a fee for such services which may include an amount for the creation transaction fee and non-standard charges. Investors are responsible for the costs of transferring the securities constituting the deposit securities to the account of the Trust. The Adviser may retain all or a portion of the transaction fee to the extent the Adviser bears the expenses that otherwise would be borne by the Trust in connection with the issuance of a Creation Unit, which the transaction fee is designed to cover. The standard Creation Unit transaction fee for the Fund is \$500.

A redemption transaction fee may be imposed for the transfer and other transaction costs associated with the redemption of Creation Units, and Authorized Participants will be required to pay a redemption transaction fee regardless of the number of Creation Units created in the transaction. The redemption transaction fee is the same no matter how many Creation Units are being redeemed pursuant to any one redemption request. The Fund may adjust the redemption transaction fee from time to time based upon actual experience. In addition, the Fund may impose a non-standard charge of up to 0.02% of the value of a redemption transaction for cash redemptions, non-standard orders, or partial cash redemptions for the Fund. Investors who use the services of an Authorized Participant, broker or other such intermediary may be charged a fee for such services which may include an amount for the redemption transaction fees and non-standard charges. Investors are responsible for the costs of transferring the securities constituting the Fund securities to the account of the Trust. The non-standard charges are payable to the Fund as it incurs costs in connection with the redemption of Creation Units, the receipt of Fund securities and the cash redemption amount and other transactions costs. The standard redemption transaction fee for Fund is \$500.

Note 6 – Principal Risks

As with any investment, the investor could lose all or part of their investment in the Fund and the Fund's performance could trail that of other investments. The Fund is subject to the principal risks noted below, any of which may adversely affect the Fund's NAV, trading price, yield, total return and ability to meet its investment objective. A more complete description of principal risks is included in the Fund's prospectus.

ADR Risk: To the extent the Fund seeks exposure to foreign companies, the Fund's investments may be in the form of depository receipts or other securities convertible into securities of foreign issuers, including ADRs. While the use of ADRs, which are traded on exchanges and represent an ownership in a foreign security, provide an alternative to directly purchasing the underlying foreign securities in their respective national markets and currencies, investments in ADRs continue to be subject to certain of the risks associated with investing directly in foreign securities.

Authorized Participants, Market Makers and Liquidity Providers Concentration Risk: Because the Fund is an exchange-traded fund (“ETF”), only a limited number of institutional investors (known as “Authorized Participants”) are authorized to purchase and redeem Shares directly from the Fund. In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Fund Shares may trade at a material discount to NAV and possibly face delisting: (i) Authorized Participants exit the business or otherwise become unable to process creation and/or redemption orders and no other Authorized Participants step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.

Common Stock Risk: Common stock holds the lowest priority in the capital structure of a company, and therefore takes the largest share of the company’s risk and its accompanying volatility. The value of the common stock held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or facts relating to specific companies in which the Fund invests.

Currency Exchange Rate Risk: The Fund may invest a relatively large percentage of its assets in securities denominated in non-U.S. currencies. Changes in currency exchange rates and the relative value of non-U.S. currencies will affect the value of the Fund’s investment and the value of your Shares. Because the Fund’s net asset value (“NAV”) is determined in U.S. dollars, the Fund’s NAV could decline if the currency of the non-U.S. market in which the Fund invests depreciates against the U.S. dollar, even if the value of the Fund’s holdings, measured in the foreign currency, increases. Currency exchange rates can be very volatile and can change quickly and unpredictably. As a result, the value of an investment in the Fund may change quickly and without warning and you may lose money.

Early Close/Trading Halt Risk: An exchange or market may close or issue trading halts on specific securities, or the ability to buy or sell certain securities or financial instruments may be restricted, which may result in the Fund being unable to buy or sell certain securities or financial instruments. In such circumstances, the Fund may be unable to rebalance its portfolio, may be unable to accurately price its investments and/or may incur substantial trading losses.

Emerging Markets Securities Risk: Emerging markets are subject to greater market volatility, lower trading volume, political and economic instability, uncertainty regarding the existence of trading markets and more governmental limitations on foreign investment than more developed markets. In addition, securities in emerging markets may be subject to greater price fluctuations than securities in more developed markets. An investment in securities of foreign companies may be in the form of depository receipts or other securities convertible into securities of foreign issuers.

Foreign Securities Risk: Investments in non-U.S. securities involve certain risks that may not be present with investments in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations or to expropriation, nationalization or adverse political or economic developments. Foreign securities may have relatively low market liquidity and decreased publicly available information about issuers. Investments in non-U.S. securities also may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. Non-U.S. issuers may also be subject to inconsistent and potentially less stringent accounting, auditing, financial reporting and investor protection standards than U.S. issuers. These and other factors can make investments in the Fund more volatile and potentially less liquid than other types of investments.

Geographic Investment Risk: To the extent the Fund invests a significant portion of their assets in the securities of companies of a single country or region, they are more likely to be impacted by events or conditions affecting that country or region.

Geopolitical Risk: Some countries and regions in which the Fund invests have experienced security concerns, war or threats of war and aggression, terrorism, economic uncertainty, natural and environmental disasters and/or systemic market dislocations that have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world economies and markets generally, each of which may negatively impact the Fund’s investments.

Index Tracking Risk: The Fund’s return may not match or achieve a high degree of correlation with the return of its underlying index.

Industry and Sector Concentration Risk: From time to time, the Fund may invest a significant percentage of its assets in issuers in a single industry (or the same group of industries) or sector of the economy. To the extent the Fund’s investments are concentrated in or have significant exposure to a particular issuer, industry or group of industries, or asset class, the Fund may be more vulnerable to adverse events affecting such issuer, industry or group of industries, or asset class than if the Fund’s investments were more

broadly diversified. While the Fund's sector and industry exposure is expected to vary over time based on the composition of the Index, the Fund anticipates that it may be subject to some or all of the risks described below. The list below is not a comprehensive list of the sectors and industries the Fund may have exposure to over time and should not be relied on as such.

Consumer Discretionary Sector Risk. Consumer discretionary companies are companies that provide non-essential goods and services, such as retailers, media companies and consumer services. These companies manufacture products and provide discretionary services directly to the consumer, and the success of these companies is tied closely to the performance of the overall domestic and international economy, interest rates, competition and consumer confidence.

Consumer Staples Sector Risk. Companies in the consumer staples sector are subject to government regulation affecting the permissibility of using various food additives and production methods, which regulations could affect company profitability. Tobacco companies may be adversely affected by the adoption of proposed legislation and/or by litigation. Also, the success of food and soft drinks may be strongly affected by fads, marketing campaigns and other factors affecting supply and demand.

Information Technology Sector Risk. Information technology companies may be smaller and less experienced companies, with limited product lines, markets or financial resources and fewer experienced management or marketing personnel. Information technology company stocks, especially those which are Internet related, have experienced extreme price and volume fluctuations that are often unrelated to their operating performance.

Issuer-Specific Risk: Fund performance depends on the performance of individual securities to which the Fund has exposure. Issuer-specific events, including changes in the financial condition of an issuer, can have a negative impact on the value of the Fund.

Large Capitalization Risk: Returns on investments in securities of large companies could trail the returns on investments in securities of smaller and mid-sized companies.

Market Risk: The market price of a security or instrument could decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security may also decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.

New Fund Risk: As a new fund, there can be no assurance that the Fund will grow to or maintain an economically viable size, in which case it could ultimately liquidate. The Fund's distributor does not maintain a secondary market in the Shares.

Operational Risk: The Fund and its service providers may experience disruptions that arise from human error, processing and communications errors, counterparty or third-party errors, technology or systems failures, any of which may have an adverse impact on the Fund.

Passive Investment Risk: The Fund is not actively managed and therefore the Fund would not sell shares of an equity security due to current or projected underperformance of a security, industry or sector, unless that security is removed from a Fund's Index or the selling of shares is otherwise required upon a rebalancing of the Index.

Portfolio Turnover Risk: In seeking to replicate the Index, which is adjusted and rebalanced quarterly, the Fund may incur relatively high portfolio turnover. High portfolio turnover may result in increased transaction costs and may lower Fund performance.

Premium/Discount Risk: Although it is expected that the market price of the Fund's Shares typically will approximate its NAV, there may be times when the market price and the NAV differ and the Fund's Shares may trade at a premium or discount to the NAV.

Small- and Mid-Capitalization Risk: The small and mid-capitalization companies in which the Fund invests may be more vulnerable to adverse business or economic events than larger, more established companies, and may underperform other segments of the market or the equity market as a whole. Securities of small- and mid-capitalization companies generally trade in lower volumes, are often more vulnerable to market volatility, and are subject to greater and more unpredictable price changes than larger capitalization stocks or the stock market as a whole.

EXCHANGE LISTED FUNDS TRUST
NOTES TO FINANCIAL STATEMENTS (Continued)

April 30, 2018

Trading Risk: Shares of the Fund may trade on Cboe BZX Exchange, Inc. (the "Exchange") above or below their NAV. The NAV of Shares will fluctuate with changes in the market value of the Fund's holdings. In addition, although the Fund's Shares are currently listed on the Exchange, there can be no assurance that an active trading market for Shares will develop or be maintained. Trading in Fund Shares may be halted due to market conditions or for reasons that, in the view of the Exchange, make trading in Shares inadvisable.

Note 7 – Federal Income Taxes

On the Statement of Assets and Liabilities, as a result of permanent book to tax differences arising primarily from redemption in-kind transactions, the following amounts have been reclassified for the tax period ended April 30, 2018:

Fund	Capital	Accumulated Undistributed Net Investment Income (Loss) on Investments	Accumulated Net Realized Gain (Loss) on Investments
ProSports Sponsors ETF	\$ 411,067	\$ (2,809)	\$ (408,258)

The tax character of the distributions paid during the tax period ended April 30, 2018 was as follows:

Fund	Distributions paid from		
	Ordinary Income	Net Long-Term Capital Gains	Total Distributions Paid
ProSports Sponsors ETF April 30, 2018	\$ 33,600	\$ —	\$ 33,600

As of the tax period ended April 30, 2018, the components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistributed Ordinary Income	Undistributed Long-Term Capital Gains	Accumulated Capital and Other Losses	Unrealized Appreciation (Depreciation) on Investments	Unrealized Appreciation (Depreciation) on Foreign Currency	Accumulated Earnings (Deficit)
ProSports Sponsors ETF	\$ 18,021	\$ —	\$ (8,347)	\$ (136,788)	\$ 1	\$ (127,113)

At April 30, 2018, gross unrealized appreciation and depreciation of investments owned by the Fund, based on cost for federal income tax purposes were as follows:

Fund	Tax Cost	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
ProSports Sponsors ETF	\$ 5,632,105	\$ 163,885	\$ (300,673)	\$ (136,788)

The differences between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.

As of April 30, 2018, the Fund had \$8,347 of post-October capital losses which are deferred until May 1, 2018 for tax purposes. Net capital losses incurred after October 31 and within the taxable year are deemed to arise on the first day of the Fund's next taxable year.

Note 8 - Recently Issued Regulatory Pronouncements

On October 13, 2016, the Securities and Exchange Commission (the "SEC") adopted new rules and forms, and amended existing rules and forms, which are designed to modernize the reporting of information provided by funds and to improve the quality and type of information that funds provide to the SEC and investors. In addition, the SEC adopted Rule 22e-4 under the 1940 Act to require certain open-end funds to adopt liquidity risk management programs to ensure that such funds meet their obligation to satisfy shareholder redemption requests on a daily basis. Exchange Traded Funds ("ETFs") that qualify as so-called "in-kind ETFs" will be excluded from certain requirements. Management is currently evaluating the impacts to the Fund.

Note 9 – Subsequent Events

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. Management has determined there are no material events that would require disclosure in the Fund's financial statements through this date.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of ProSports Sponsors ETF and
Board of Trustees of Exchange Listed Funds Trust

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of ProSports Sponsors ETF (the "Fund"), a series of Exchange Listed Funds Trust, as of April 30, 2018, and the related statements of operations and changes in net assets, including the related notes, and the financial highlights for the period July 10, 2017 (commencement of operations) through April 30, 2018 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of April 30, 2018, the results of its operations, the changes in its net assets, and the financial highlights for the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audit includes performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and confirmation of securities owned as of April 30, 2018, by correspondence with the custodian and brokers. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

We have served as the auditor of one or more of Exchange Traded Concepts, LLC's investment companies since 2012.

DISCLOSURE OF FUND EXPENSES

April 30, 2018
(Unaudited)

Expense Examples

All Exchange Traded Funds (“ETF”) have operating expenses. As a shareholder of the Fund you incur an Advisory fee. In addition to the Advisory fee, a shareholder may pay brokerage expenses, taxes, interest, litigation expenses and other extraordinary expenses (including acquired fund fees and expenses), if any. It is important for you to understand the impact of these ongoing costs on your investment returns. Shareholders may incur brokerage commissions on their purchases and sales of Fund shares, which are not reflected in these examples.

The following examples use the annualized expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in the Fund and to compare these costs with those of other funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period (unless otherwise noted below). The table below illustrates the Fund’s cost in two ways:

Actual Fund Return

This section helps you to estimate the actual expenses after fee waivers that the Fund may have incurred over the period. The “Expenses Paid During Period” column shows the actual dollar expense cost incurred by a \$1,000 investment in the Fund, and the “Ending Account Value” number is derived from deducting that expense cost from the Fund’s gross investment return for the period.

You can use the information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over the period. Simply divide your actual account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply that ratio by the number shown for the Fund under “Expenses Paid During Period.”

Hypothetical 5% Return

This section helps you compare the Fund’s costs with those of other funds. It assumes that the Fund had an annualized return of 5% before expenses and the expense ratio for the period is unchanged. This example is useful in making comparisons because the SEC requires all funds to make this 5% calculation. You can assess the Fund’s comparative cost by comparing the hypothetical results for the Fund in the “Expenses Paid During Period” column with those that appear in the same charts in the shareholder reports for other funds.

NOTE: Because the return is set at 5% for comparison purposes - not the Fund’s actual return - the account values shown may not apply to your specific investment.

	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	Expenses Paid During Period
Actual Performance*	11/1/17	4/30/18		11/1/17 –4/30/18
ProSports Sponsors ETF	\$ 1,000.00	\$ 1,046.10	0.69%	\$ 3.50
Hypothetical (5% annual return before expenses)*				
ProSports Sponsors ETF	\$ 1,000.00	\$ 1,021.37	0.69%	\$ 3.46

* Expenses paid during the period are equal to the Fund’s annualized expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).
